SUMMARY

A Bachelor of Applied Computer Science grad that minored in management. Enjoys working through a problem and feeling that rush when the code finally comes together. Loves working with data and back end logic. Looking to grow my development skillset together with an enterprising company.

EMPLOYMENT

Highway Three Solution

Web Developer · 2017 to Current, 2017 to Current · Victoria, BC

Use: Java, Python, Ruby on Rails, PHP, SQL

Build and maintain applications for clients in an Agile environment. Generate feasibility reports on prospective technologies and features based on existing systems.

Lighthouse Labs
